PRODUCT DESCRIPTION

INSTRUCTIONS FOR USE

Thoroughly clean and rinse surfaces, and then spray the surface with SteriTech Fresh uniformly from a distance of about 30cm away. Allow the contact time of your required efficacy, as per the Efficacy Table below, or allow the surface to dry completely, naturally, before using the surface again. Repeat as often as required by your Infection Control Protocol (suggested Protocols available on request).

When disinfecting beauty therapy tools, ensure that they are free from nail dust and other contaminants prior to applying the product.
