

SHAMPOO

Antimicrobial animal shampoo

ACTIVE INGREDIENTS

Vetguard Shampoo contains 1.25% SteriTech Concentrate (a QAC/TBTO blend); 96.25% Inert Ingredients

QUICK

Broad-spectrum surface disinfection in just 5 minutes.

EASE OF USE

Effective on dogs, cats and horses.

ECONOMICAL

High foaming product makes large scale, use easy and affordable.

SAFE

Non-toxic, non-staining, non-caustic and biodegradable.

BROAD SPECTRUM

2 separate active ingredients ensure bactericidal, fungicidal, and virucidal efficacy.

MULTIPURPOSE PRODUCT

Applicable for skin disinfection and cleaning, as well as coat deodorisation.

PPE REQUIREMENTS

None necessary, however caution should be taken to avoid direct, extended eye contact with the product.

INSTRUCTIONS FOR USE

Wet animal, then apply enough **Vetguard Shampoo** to lather the entire coat. Work into a lather and allow to soak for 5 minutes before rinsing the lather off of the animal with running water. Repeat in cases of extreme fungal infection.

For external use only.

RECOMMENDED USES

Routine cleaning of healthy animals.
Routine cleaning of aging animals prone to mal-odorous coats.
As part of a treatment regime for animals suffering from bacterial or fungal skin infections.

FIRST AID

In case of eye contact: Flush eyes thoroughly with water. Redness may occur, but should dissipate within 30 minutes. Should it persist, consult your doctor.

In case of ingestion: Do not induce vomiting, rinse out mouth then drink a large glass of water, and consult your doctor.

In case of skin contact: Rinse affected area with water.

In case of inhalation: Remove patient to fresh air for 15 minutes.
